Sock Coin

Welcome to the World of Sock Coin:

The Stylish Meme Coin Serving Its Community! 🎉

Sock Coin is a collective adventure where everyone gets a lot of Socks. Imagine this: 80% of the total supply is distributed to the community! Here's how it works:

- 50% at a Free Price: For 5 days, you can send any amount of BNB to this wallet, and based on your contribution, a percentage of Sock Coin will be allocated to you. The more you give, the more you receive, and the less likely you'll have cold feet!
- 30% in AirDrop: Who doesn't have holey Socks or cold feet? 30% of the total supply will be airdropped to the community. The percentage you receive will depend on your initial participation. Simple and effective! Be generous, and we will be too!
- 10% Reserved for Liquidity Pools: Once the 50% supply and the AirDrop have been distributed, liquidity pools will be created to ensure stability and smooth transactions. You will be able to trade your Sock Coins with ease.
- 5% for the Team: Because a good team deserves its reward, 5% of the supply is reserved for those working hard to make Sock Coin a success.
- 5% for CEX: Finally, 5% of the supply is reserved for centralized exchanges (CEX), ensuring maximum visibility and optimal accessibility.
